New York, February 20.-To-lay's cotton market was a disappointment as to the volume of business, but a net advance of 3 to 7 soints was finally secured, as the market had opened at an advance of 6 to market had oboned at an advance of 6 is 10 points, which proved to be within a point of the beas of the day. The favority option sold as high as 7.02 and as low of 6.56, closing at 6.95. This represents the scope of the market for the day. The sensitional rumors of a war-like character surporting to have come from Europe year error at the continuation of the day afternoon were not followed up by anything like confirmation today, except that I warped was a leading buyer throughout the session. Findleh cables on the average were designed by a feature of the trading beth liquidation for New Orleans account. Mediciale movement of cotton at the ports is predicted for next week.

& Co.'s cotton letter says: Our local traders are bearish by reason of the ab sence of local spaculation, and sold freely during the day on the increase at Men-phis and Augusta. We find the South also disposed to sell catton short at these low prices. At the close the presence of con-tinental paying orders was nonceable, which maintained values in the face of landiation by a local operator indisposed to remain long of cotton over the hosiday.
